Appendices: Appendix 'A', rough sketch map of MARXWALDE airfield showing measurements of the runway, taxi way, access roads etc.

1. The runway, parallel taxi track, access tracks and readiness platform at the eastern end of the runway are now completely surfaced with concrete. A concreted strip at right angles to the northern side of the parallel taxi track gives access to the road to QUAPPENDORF at a position approximately 475298.

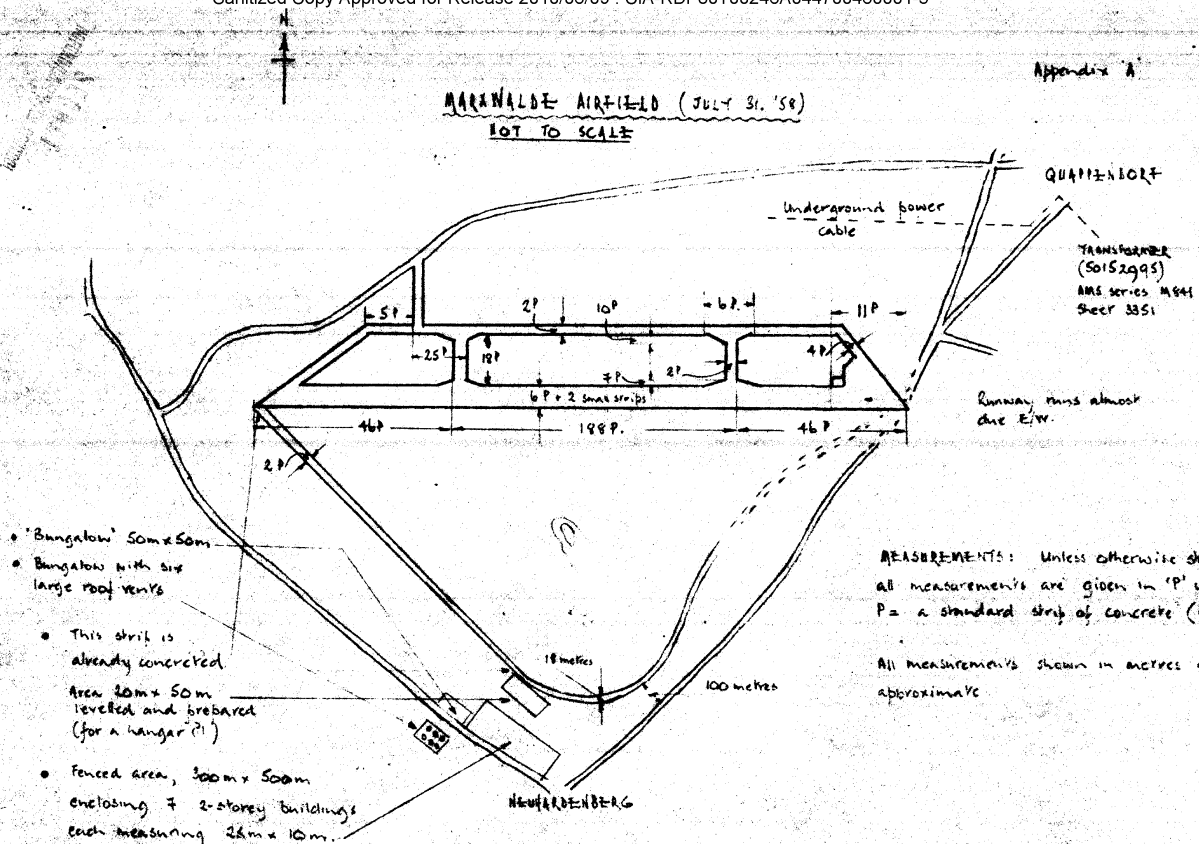

2. From the western end of the runway a concreted track runs south-east to a point approximately 484284 where on the south side of the track an area measuring 20m x 50m has been levelled and prepared. The track, now in a rough earth state, swings north-east, passes within 100 metres of the NEUHARDENBERG/QUAPPENDORF road at a point approximately 486285 and joins the eastern end of the runway.
